JELLYFISH is an amusement ride of space gyro category developed by our company, which integrates rotation, lifting, variable tilts and other movement forms. It is one of top choices for standard theme parks or modern amusement park. When lower transmission parts and middle turret rotate at different levels, the turret will rise slowly, and the lower transmission parts will shake through the column, and the cabin will ripple like the wave, allowing the riders flying in the air to go close to the sky and feel own heartbeat.

The amusement ride is equipped with insurance devices and the cabin is equipped with seat belts, the key components have been made by nondestructive testing inspection
